

# INDSPNCON 2025

35<sup>th</sup> ANNUAL CONFERENCE & CME OF THE INDIAN  
SOCIETY OF PAEDIATRIC NEUROSURGERY

THEME -

COMPLICATION AVOIDANCE IN  
PAEDIATRIC NEUROSURGERY

DATE - 28th Feb - 2nd Mar 2025

VENUE - The Lalit, Chandigarh

## ORGANIZED BY

Department of Neurosurgery, PGIMER, Chandigarh

DR. SK GUPTA  
Organizing Chairman

DR. KARTHIGEYAN. M  
Organizing Secretary

[www.indspncon2025.com](http://www.indspncon2025.com)

[indspncon2025@gmail.com](mailto:indspncon2025@gmail.com)

# INDSPNCON 2025

35<sup>th</sup> ANNUAL CONFERENCE & CME OF THE INDIAN  
SOCIETY OF PAEDIATRIC NEUROSURGERY

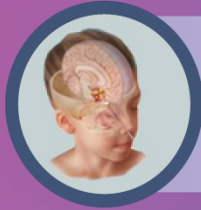

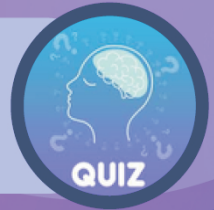

## Program Highlights

Continuing Medical  
Education Program (CME)

Inter-institutional  
Quiz for Residents

Theme based discussion

Dr. SN Bhagwati Oration

Award Papers

Meet the mentor session

## Day 1 - 28<sup>th</sup> February, Friday

TIME	TOPIC	SPEAKER
	<b>CME: NEURO-ONCOLOGY</b>	
07.30 am onwards	<b>Registration</b>	
08.15 am - 08.30 am	<b>CME Introduction</b>	
08.30 am - 09.45 am	<p><b>Pediatric glioma: High and low grade</b>            Chairpersons: <b>Anandh Balasubramanian, Arivazhagan A, Narendra Kumar</b></p> <p>Current WHO classification of pediatric glioma - what is new?            Surgical strategies for pediatric high grade glioma            Pediatric low grade glioma and epilepsy: Surgical management            Midline glioma: an update on a therapeutic challenge            Adjuvant therapies and outcome in pediatric high grade glioma: Current evidence            Case discussion and audience questions</p>	<p><b>Nandeesh B.N.</b> (Neuropathologist)  <b>Anandh Balasubramaniam</b>  <b>Dattareya Mujumdar</b>  <b>Deepak Gupta</b>  <b>Renu Madan</b> (Radiation Oncologist)  <b>Dattatreya Mujumdar,</b>  <b>Deepak Gupta</b></p>
09.45 am - 10.45 am	<p><b>Craniopharyngioma</b>            Chairpersons: <b>Shlomi Constantini, V.P. Singh, Naveen Mehrotra</b></p> <p>Critical neuro anatomy and selection of surgical route in craniopharyngioma surgery: pros and cons            The never ending debate: Extent of resection in craniopharyngioma.            Management of residual / recurrent craniopharyngioma            Long term outcome in craniopharyngioma : Surgeon's perspective.            Case discussion and audience questions</p>	<p><b>Roopesh Kumar</b>  <b>V.P. Singh</b>  <b>Dhandapani SS</b>  <b>Arivazhagan A</b>  <b>Arivazhagan A, Dhandapani SS</b></p>
10.45 am - 11.15 am	<b>Coffee Time</b>	

## Day 1 - 28<sup>th</sup> February, Friday

TIME	TOPIC	SPEAKER
11.15 am - 12.00 pm	<p><b>Tumors in infancy</b>                      Chairpersons: <b>Deepak Gupta, Hemant Bhagat</b> (Neuroanesthetist), <b>Kaushik Sil</b>                      Imaging of tumors in infancy: Diagnostic tips and challenges                      Perioperative considerations for surgery in infants: Anesthetists' perspective                      Surgical challenges in brain tumors of infancy</p>	<p><b>Sameer Vyas</b>  <b>Kiran Jangra</b> (Neuroanesthetist)  <b>Suhas Udayakumaran</b></p>
12.00 pm - 01.00 pm	<p><b>Optic pathway glioma / Tumors in NF1</b>                      Chairpersons: <b>V.P. Singh, Roopesh Kumar, Suchanda Bhattacharjee</b>                      Incidence and screening guidelines for tumors in NF1                      Optic pathway glioma: Indications for surgery                      Current advances in chemotherapy for optic pathway glioma                      Panel Discussion                      Moderators: <b>Suhas Udayakumaran, Arun Srivastava</b>                      Panelists: <b>Ashis Pathak, Narendra Kumar</b> (Radiation Oncologist), <b>Amita Trehan</b> (Medical Oncologist)</p>	<p><b>Arun Srivastava</b>  <b>Shlomi Constantini</b>  <b>Amita Trehan</b></p>
01.00 pm - 01.30 pm	<b>Poster Viewing &amp; Evaluation</b>	
01.30 pm - 02.30 pm	<b>Lunch</b>	
02.30 pm - 03.30 pm	<p><b>Embryonal tumor</b>                      Chairpersons: <b>Suhas Udayakumaran, Amita Trehan, Debjyoti Chatterjee</b>                      Molecular advances in medulloblastoma and ependymoma                      Surgical strategies in the background of recent WHO classification                      Recurrent medulloblastoma / ependymoma : Options and guidelines for management                      Newer advances in imaging: an update on radiogenomics                      Therapy for embryonal tumors: Current standards and newer advances                      Case discussion and audience questions</p>	<p><b>Debjyoti Chatterjee</b>  <b>Suchanda Bhattacharjee</b>  <b>Shibu Pillai</b>  <b>Sarbesh Tiwari</b>  <b>Richa Jain</b> (Medical Oncologist)  <b>Suchanda Bhattacharjee, Shibu Pillai</b></p>

## Day 1 - 28<sup>th</sup> February, Friday

TIME	TOPIC	SPEAKER
03.30 pm - 04.20 pm	<b>Spinal intramedullary tumors</b> Chairpersons: <b>Subodh Raju, Sachin Borkar, Karthigeyan M</b> Intramedullary tumors in children Neuromonitoring in children: Indications and nuances? Residual Low grade lesions in spinal cord: Treat or follow? Case discussion and audience questions	<b>Subodh Raju</b> <b>Anurag Sharma</b> <b>Kaushik Sil</b> <b>Subodh Raju, Kaushik Sil</b>
04.20 pm - 04.30 pm	<b>Coffee Time</b>	
04.30 pm - 05.30 pm	<b>Intercollegiate Quiz: Final</b>	
05.30 pm - 06.00 pm	<b>Poster Viewing &amp; Evaluation</b>	
06.00 pm - 07.00 pm	<b>EC Meeting</b>	
08:00 pm onwards	<b>Dinner</b>	

## Day 2 - 1<sup>st</sup> March, Saturday

TIME	TOPIC	SPEAKER
07.15 am - 08.00 am	<p><b>Meet the Mentor</b>            Moderators: <b>Praneeth Kokkula, Saurav Samantray</b>            How to face complications and the way forward - Mindset, academics</p>	<b>Vedantam Rajshekhar, VP Singh</b>
08:00 am - 09:00 am	<p><b>Spinal Dysraphism - Tribute to Dr. Sandip Chatterjee</b>            Chairpersons: <b>SK Gupta, Vedantam Rajsekhar, Navneet Singla</b>            To Sir, With Love            What I have learnt: Complication avoidance in Surgical management of spinal dysraphism            Clasification of Spinal dysraphism: A scientific tribute            Young Neurosurgeons case: My Dilemma            Senior Neurosurgeon: My worst case</p>	<p><b>Kaushik Sil</b>  <b>Vedantam Rajsekhar</b>  <b>Kaushik Sil</b>            TBD  <b>Deepak Gupta</b></p>
09:00 am - 10.15 am	<p><b>Hydrocephalus I</b>            Chairpersons: <b>Ramesh V.G, Arivazhagan A, Bernard Lyngdoh</b>            What I have learnt-VP Shunt and its complications            A perfect shunt- My practice and Science            Avoiding and managing shunt infection            Current evidence in Programmable shunt for avoiding complications            Young Neurosurgeons case: My Dilemma            Senior Neurosurgeons: My worst case</p>	<p><b>Ramesh.V.G</b>  <b>Naresh Biyani</b>  <b>Shibu Pillai</b>  <b>Naveen Mehrotra</b>  <b>Sonal Jain</b>  <b>Rakesh Gupta,</b>  <b>Dattatreya Mujumdar,</b>  <b>Suchanda Bhattacharjee</b></p>
10.15 am - 10.30 am	<b>Coffee / Poster Viewing &amp; Evaluation</b>	

## Day 2 - 1<sup>st</sup> March, Saturday

TIME	TOPIC	SPEAKER
10:30 am - 11.00 am	<p><b>Dr. SN Bhagwati Oration</b> Complication avoidance in pediatric neurosurgery: The ones we may win to and the ones we still struggle to find the way to</p>	<p><b>Gianpiero Tamburrini</b> (President, ISPN)</p>
11.00 am - 11.30 am	<p><b>Presidential Oration</b></p>	<p><b>V.P. Singh</b></p>
11.30 am - 12.15 pm	<p><b>Neuroendoscopy</b> Chairpersons: <b>Shlomi Constantini, Rajesh Chhabra, Roopesh Kumar</b> What I have learnt-Transsphenoidal approach in children What I have learnt-Avoidance of complications in ETV Senior Neurosurgeon: My worst case</p>	<p><b>C.E. Deopujari</b> <b>Shlomi Constantini</b> <b>Dhandapani SS</b></p>
12.15 pm - 01.00 pm	<p><b>Inauguration</b></p>	
01.00 pm - 01.45 pm	<p><b>Lunch</b></p>	
01.45 pm - 02.15 pm	<p><b>Hydrocephalus II</b> Chairpersons: <b>Rajesh Chhabra, Shibu Pillai, Karthi Nallasamy</b> Neuroendoscopy for complex hydrocephalus Young Neurosurgeons case: My dilemma Senior Neurosurgeon: My worst case</p>	<p><b>Arivazhagan A</b> <b>TBD</b> <b>Bernard Lyngdoh</b></p>
02.15 pm - 02.45 pm	<p><b>Craniofacial</b> Chairpersons: <b>Daljit Singh, Uday Andar, Apinderpreet Singh</b> What I have learnt? Complication avoidance in surgeries for calvarial surgeries for craniosynostoses Young Neurosurgeons case: My Dilemma Senior Neurosurgeon case: My worst case</p>	<p><b>Uday Andar</b> <b>Saurav Samantray</b> <b>TBD</b></p>

## Day 2 - 1<sup>st</sup> March, Saturday

TIME	TOPIC	SPEAKER
02.45 pm - 03.30 pm	<p><b>Tumour Surgery</b>            Chairpersons: <b>Ashis Pathak, Rakshith srinivas, Srinivas Peyam</b>            What I have learnt? Complication avoidance in tumour surgeries: Supratentorial            What I have learnt? Complication avoidance in tumour surgeries: Infracerebral            Young Neurosurgeons case: My Dilemma            Senior Neurosurgeon case: My worst case</p>	<p><b>VP Singh</b>  <b>Ashis Pathak</b>  <b>Ved Prakash Maurya</b>  <b>TBD</b></p>
03.30 pm - 04.00 pm	<p><b>Caring for Young Lives: A Journey Through Paediatric Excellence</b>  <i>Invited speaker of eminence in pediatrics</i></p>	<p><b>Prof. Vinod paul</b></p>
04:00 pm - 04.40 pm	<p><b>Handling Medicolegal Aspects</b>  <b>Handling Complications: Discussing with family, documenting and medicolegal aspects</b>            Chairpersons: <b>VP Singh, Daljit Singh</b>            Medicolegal vulnerabilities in Pediatric Neurosurgery-Avoidance, defence &amp; bailout mechanisms            TBD            Panel Discussion:            Ethical challenges, moral dilemmas &amp; medicolegal tangles in pediatric neurosurgery            Moderator: <b>George Villanilam</b>            Panelists: <b>Daljit Singh, Ashish Aggarwal, Jayashree Muralidharan</b> (Pediatrics)  <b>Minni Arora</b> (Hospice &amp; palliative care)</p>	<p><b>George Villanilam</b>            Daljit Singh</p>
04.40 pm - 05.30 pm	<p><b>Free Paper / Flash Oral</b>            Chairpersons: <b>Dattatreya Mujumdar, Naresh Biyani, Chandrashekhar Gendle</b>  <b>Free paper</b>            Management of Antenatally Diagnosed Neurosurgical Diseases: Indian National Fetal Registry for Neurosurgical Disorders (INFRND)            Complication avoidance in paediatric diagnostic cerebral dsas</p>	<p>Sheena Ali  <b>Mayur Gharat</b></p>

## Day 2 - 1<sup>st</sup> March, Saturday

TIME	TOPIC	SPEAKER
	<p><b>Flash</b>            Evolution in the management of occult spinal dysraphism: A single institute experience with the use of Neuromonitoring.            Role of flexible neuroendoscopy in management of hydrocephalus our experience in last 7 years.            Craniostenosis Unlocked: Strategies for seamless surgery and complication-free outcomes            Institutional experience with limited dorsal myeloschisis: A fresh perspective on the newest member of the spinal dysraphism family            Enhancing the safety paradigm in craniostynostosis surgery: Lessons from complications            Endoscopic 3rd ventriculostomy – what not to do            Functional outcomes after moderate head injury in the pediatric population            A story of incomplete disconnection in a case of status epilepticus            Reduction cranioplasty in macrocephaly and its surgical technique</p>	<p><b>Murali Krishna Bethanbhatla</b>   <b>Shighakolli Ramesh</b>  <b>Mangalkumar Rachatte</b>  <b>AR Prabhuraj</b>   <b>Vishakha Karpe</b>  <b>Harishchandra Lalgudi Srinivasan</b>  <b>Bansil Javia</b>  <b>Subhashree Hari</b>  <b>Abhijit Acharya</b></p>
05.30 pm - 06.30 pm	<p><b>INDSPN Midterm meeting 2025</b>, Bhubaneswar  <b>INDSPNCON 2026</b>, Rishikesh  <b>General Body Meeting</b></p>	<p><b>Arunkumar Sekar</b>  <b>Jitender Chaturvedi</b></p>
07.30 pm onwards	<b>Gala Dinner</b>	

## Day 3 - 2<sup>nd</sup> March, Sunday

TIME	TOPIC	SPEAKER
07:15 am - 08:00 am	<p><b>Meet the Mentor</b> Moderator: <b>Vishakha Karpe</b></p> <p>Why is paediatric special / what to expect from paediatric neurosurgery</p>	<b>Uday Andar, Ramesh.VG</b>
08:00 am - 09:00 am	<p><b>Award Papers</b> Chairpersons: <b>VP Singh, Ramesh VG, Shibu Pillai</b></p> <p>The Impact of Pathophysiological and Microstructural Alterations in Visual Pathway on the Functional Outcome of Posterior Fossa Tumours</p> <p>Technical Nuances of Endoscopic endonasal approach for pediatric craniopharyngiomas: A Surgical reappraisal of techniques and outcomes.</p> <p>Pediatric Craniovertebral Junction Anomalies: Past, Present and Future</p> <p>Clinical Presentation and Outcomes in Limited Dorsal Myeloschisis</p> <p>Comparative Assessment of Quality of Life in Paediatric Spinal Dysraphism in a LMIC Setting</p> <p>A Proposal for Novel Predictive Model for Post-Operative Cerebellar Mutism and Comparison with the Pre-Existing Rotterdam Model</p>	<p><b>Achintya Ajaya</b></p> <p><b>Vishwaraj Ratha</b></p> <p><b>Ila Katyayan</b></p> <p><b>Aaron Jose Fernandes</b></p> <p><b>Sai Shiva</b></p> <p><b>Utkarsh Kumar</b></p>
09:00 am - 10:00 am	<p><b>Miscellaneous</b> Chairpersons: <b>Suhas Udayakumaran, Sandeep Mohindra, Apinderpreet Singh</b></p> <p>Preventive treatment options in hydrocephalus to reduce shunt revisions</p> <p>Avoiding CSF leaks in spinal and cranial surgeries</p> <p>Young neurosurgeons case: My dilemma</p> <p>Senior Neurosurgeon: My worst case</p> <p>Best Posters (Flash talk)</p> <p>Case discussions/free papers on the subject</p>	<p><b>Ulrich Thomale</b></p> <p><b>Prabu Rau Sriram</b></p> <p><b>Ved prakash Maurya</b></p> <p><b>Ashis Pathak</b></p> <p><b>TBD</b></p>
10.00 am - 10.15 am	<b>Coffee Time</b>	

## Day 3 - 2<sup>nd</sup> March, Sunday

TIME	TOPIC	SPEAKER
10:15 am - 11.15 am	<p><b>Spine</b>            Chairpersons: <b>Deepak Jha, Karthigeyan M, Karthick Rangasamy</b>            What I have learnt: Stabilization and instrumentation in pediatric spine: Complication avoidance</p> <p>CVJ stabilisation in children: Complication avoidance            Young neurosurgeons case: My dilemma            Senior Neurosurgeon: My worst case            Case discussions/free papers on the subject</p>	<p><b>Sajesh Menon</b>  <i>(Organizers' invited guest)</i></p> <p><b>Pravin Salunke</b>  <b>Praneeth Kokkula</b>  <b>AR Prabhuraj</b></p>
11:15 am - 12.00 pm	<p><b>Epilepsy</b>            Chairpersons: <b>Milind Sankhe, Navneet Singla, Nidhi Panda</b>            Complication avoidance in epilepsy surgery            Young Neurosurgeons case: My dilemma            Senior Neurosurgeons: My Worst case            Case discussions/free papers on the subject</p>	<p><b>Milind sankhe</b>  <b>Tarang Vora</b>  <b>George Vilanilam</b></p>
12.00 pm - 12:30 pm	<p><b>Video Session - What I learnt/ What I missed/How not to</b>            Chairpersons: <b>Brig. HS Bhatoe, Naveen Mehrotra, Chandrashekhar Gendle</b>            Craniopharyngioma            Augmented reality assisted minimal invasive vertical hemispherotomy            Avoiding hemorrhagic shock in a giant vestibular schwannoma            Ventriculoatrial shunt in complicated hydrocephalus            Complication avoidance with maximizing resection in pediatric thalamic-thalamopeduncular glioma            Avoiding vascular injury in fourth ventricular tumors</p>	<p><b>Brig. HS Bhatoe</b>  <b>Ulrich Thomale</b>  <b>Ved prakash Maurya</b>  <b>Arunkumar Sekar</b>  <b>Kamlesh Bhaisorra</b>  <b>Debarshi Chatterjee</b></p>

## Day 3 - 2<sup>nd</sup> March, Sunday

TIME	TOPIC	SPEAKER
12.30 pm - 01:15 pm	<p><b>Free Paper / Flash</b> Chairpersons: <b>Pravin Salunke, Prabhu Raj, Sushant Sahoo</b></p> <p><b>Free paper</b> Clinicoradiological and surgical outcomes of pediatric craniovertebral junction anomalies in syndromic patients Role of Bevacizumab in Giant progressive Vestibular Schwannomas in NF2 patients following Gamma Knife Radiosurgery</p> <p><b>Flash</b> Surveillance of complications in a focussed paediatric neurosurgical practice. Ventriculosubgaleal shunt in post infectious hydrocephalus: our experience A novel fixation technique using anterior C1 screw in a pediatric solitary cervical spinal juvenile xanthogranuloma Complication Avoidance in Infant Neuroendoscopic Surgery: The Flap Door Technique Management outcomes of Shunt dysfunction in children The Transcavernous Approach in Paediatric Neurosurgery Minimizing complications in epilepsy surgery Evaluating postoperative meningitis in posterior fossa tumors :results of single centre experience of one decade A study on clinical profile of head injury in paediatric patients</p>	<p><b>Ninad Anand Sawant</b> <b>Deepak Agrawal</b>  <b>Tarang Vora</b> <b>Monica N</b> <b>Prachi Gang</b>  <b>Priyadharshan KP</b> <b>Kent Reji K</b> <b>Sanjeet S</b> <b>Bharat Jain</b> <b>Srishti Dixit</b>  <b>Prabhat Purohit</b></p>
01.15 pm - 01.30 pm	<b>Valedictory</b>	
01.30 pm - 02.30 pm	<b>Lunch</b>	

## Day 3 - 2<sup>nd</sup> March, Sunday

TIME	TOPIC	SPEAKER
02.30 pm - 03.30 pm	<p><b>Indian Academy of Pediatrics (IAP) Session</b> Chairpersons: <b>Suhas Udayakumaran, Jayashree Muralidharan, Manju Mohanty</b></p> <p>Head Injury: A Pediatrician's perspective</p> <p>An overview about hydrocephalus, management &amp; outcome</p> <p>When should epilepsy surgery be offered ?</p> <p>Abnormal shapes of head</p>	<p><b>Anurag Sharma</b></p> <p><b>Kaushik Sil</b></p> <p><b>VP Singh</b></p> <p><b>Suhas Udayakumaran</b></p>

## Poster Presentation (Evaluation on February 28 & March 1, 2025)

Synchondral Fracture of the Posterior “Hemiarch” of Pediatric Atlas with Cerebrospinal Fluid Fistula following a Penetrating Neck Injury.

MELANOTIC NEUROECTODERMAL TUMOUR OF INFANCY (MNTI) : REPORT OF TWO CASES

Navigating Paediatric Colloid cyst. A reappraisal of Surgical Strategies in an Institute

Superior to inferior resection technique for 4th ventricular tumours - A safer operative strategy!“

Endoscopic Assisted Craniostomy Surgery: Complication avoidance and outcomes

Epilepsy surgery in children under 3 years of age: outcomes

Post traumatic central cord syndrome as a presentation of neglected cervical limited dorsal myelomeningocele

COMPOSITION OF NEW COMPOUND FOR THE TREATMENT OF GLIOBLASTOMA

TOTAL CRANIAL VAULT RECONSTRUCTION IN A CASE OF SCAPHOCEPHALY USING MODIFIED MELBOURNE TECHNIQUE

Segmental Spinal Dysgenesis- An Interesting Case report

A Diversion NOT in need

Spinal Cavernoma in an Infant: A Rare Pathological Entity with an Atypical Presentation

A Rare Case of Pediatric Intracranial Myoepithelioma

Multiple fusarium brain abscess

TUMOUR WITH DIAGNOSTIC PERPLEXITY- ASTROBLASTOMA, A RARE CASE REPORT

MANAGEMENT OF VENTRICULITIS POST ENDOSCOPIC THIRD VENTRICULOSTOMY

Synchronous presentation of neglected dysraphic spinal lipoma with spinal vascular malformations

DIPG with hydrocephalus: Whether a surgical biopsy is needed or not in current molecular era?

Title: Spinal Ectopic Cerebellar tissue Associated with Neurenteric Cyst: A Rare Case Report and Embryological Insights

An Uncommon Posterior fossa lesion in an infant and its management – lessons learnt

AN UNCOMMON CASE OF INTRAVENTRICULAR ASPERGILLOSIS IN A 2-YEAR OLD CHILD

CASE OF BILOBED THORACIC MENINGOCELE

Limited Dorsal Myelomeningocele with non-adjacent split cord malformation and Chiari 2 malformation : An Uncommon Association

## Poster Presentation (Evaluation on February 28 & March 1, 2025)

Chemical burns due to Betadiene in a preterm neonate baby with hydrocephalus: repercussions and outcome

Use of intraoperative ultrasonography in pediatric neurosurgery practice in Western India: a single neurosurgeon's experience and review of literature

Preoperative factors determining the outcomes in Pediatric Neurosurgery work in West India:single neurosurgeon's experience across a decade.

Conservative Therapy vs Helmet Therapy for Plagiocephaly Without Synostosis: Should We Believe The Fox's Oath Or The Rooster's Tail

"Post-Traumatic Cerebral Infarction in a child with mild traumatic brain injury with no clue on imaging"

Paediatric Medulloblastoma: Surgical management and complication avoidance

Middle Meningeal Artery Embolization as an Adjunct to surgical treatment for Chronic Subdural Hematoma: A case series

Right Occipital Bleed Secondary to P4 PCA Mycotic Aneurysm in a Paediatric Patient with Mitral Valve Infective Endocarditis: A Rare Case and Management Challenges

A Rare Case of Dual-Level Cervical Composite Split Cord Malformation: Challenges in Surgical Management and Outcomes

Intervention during the preterm phase – can it offer the same benefit as foetal surgery?

Should Post-operative Stereotactic Radiosurgery be the Standard of Care in Craniopharyngioma Patients?

Posterior fossa tumors in pediatric patients-an institutional experience.

Chiari reversal with ETV

Optimal AI framework for Model development for Prediction of Patient Complications in Ventilated Neurotrauma patients.

Contralateral Acute Extradural Hematoma Post Ventriculoperitoneal Shunt Surgery: A Neurosurgical Conundrum

A Novel Technique for Wound Closure in Open Spinal Dysraphism

Implant fracture following DBS surgery for Dystonia

Surgical Management & Outcomes of Choroid Plexus Tumors in Infants: An Institutional Experience

Persistent cerebrospinal fluid fistula after a pre-operative lumbar drain: Epidural blood and fibrin patch and resuturing.
